

Corporate Finance Decision Command Center

TURN FINANCIAL DATA INTO MANAGEMENT DECISIONS.

A finance decision system designed for CFO, FP&A, and operating leaders who need a reliable view of performance, forecast risk, liquidity, and accountable management

REVENUE	EBITDA	CASH	DSO
\$164.1M	\$16.7M	\$14.6M	53 days
-2.2% vs budget	-19.3% vs budget	-\$7.8M vs expected	+10 days vs target

WHAT THE COMMAND CENTER CONNECTS

Performance	Actual vs Budget vs Forecast, executive KPIs, and exception-based reporting.
Variance	Business-unit, regional, pricing, labor, utilization, and mix diagnostics.
Cash	Working-capital drivers, DSO, AR aging, and a 13-week liquidity outlook.
Forecast	Base, Upside, and Downside scenarios using controllable management assumptions.
Action	Owners, priorities, timing, financial impact, status, and reforecast discipline.

MANAGEMENT RHYTHM

Refresh -> Explain -> Decide -> Reforecast

ENGAGEMENT PATH

Diagnose 3-4 Weeks | Build 6-10 Weeks | Operate 6 or 12 Months
